

SECURITY CHALLENGES

1. How important is security to the overall success of a CRI distribution plan?
2. Do we really need security at POD's and during transport of medications?
 - a. Increased patrols in the area???
 - b. Quick response force???
3. How do we get police to "buy into" the plan?
4. How much Law Enforcement involvement is necessary for success?

SECURITY CHALLENGES

“Points to remember”

- 1 Security should be considered when formulating a CRI plan.
- 1 Law Enforcement will be heavily tasked during a CRI event (Use resources wisely)
- 1 Nobody ever said it would be easy. Law Enforcement support has been one of the biggest issues facing CRI planners. Get LE involved early and often
- 1 Plan to support LE with your distribution plan. Consider family.
