**Immediate Past Chair, ASCO Cancer
Research Committee**

IOM Committee on Health Research and HIPAA

October 2, 2007

ASCO Data Collection

Series of structured interviews to collect qualitative data from:

- a. IRBs/Institutional officials
- b. Investigators
- c. Cancer patients/Trial participants

Identify areas in which there is inconsistency in response among people within the same category and across categories at the same institution

Inconsistencies help inform areas where additional guidance needed

Current Status

- **Refining vignettes based on investigator, advocate, and legal counsel feedback**
 - **Critical to distinguish HIPAA vs. Common Rule issues**
- **Identifying a contractor to conduct the structured interviews**
- **Identifying academic and community institutions, investigators, and cancer patients/trial participants**
